Bloomfield High School  
Bloomfield, New Jersey

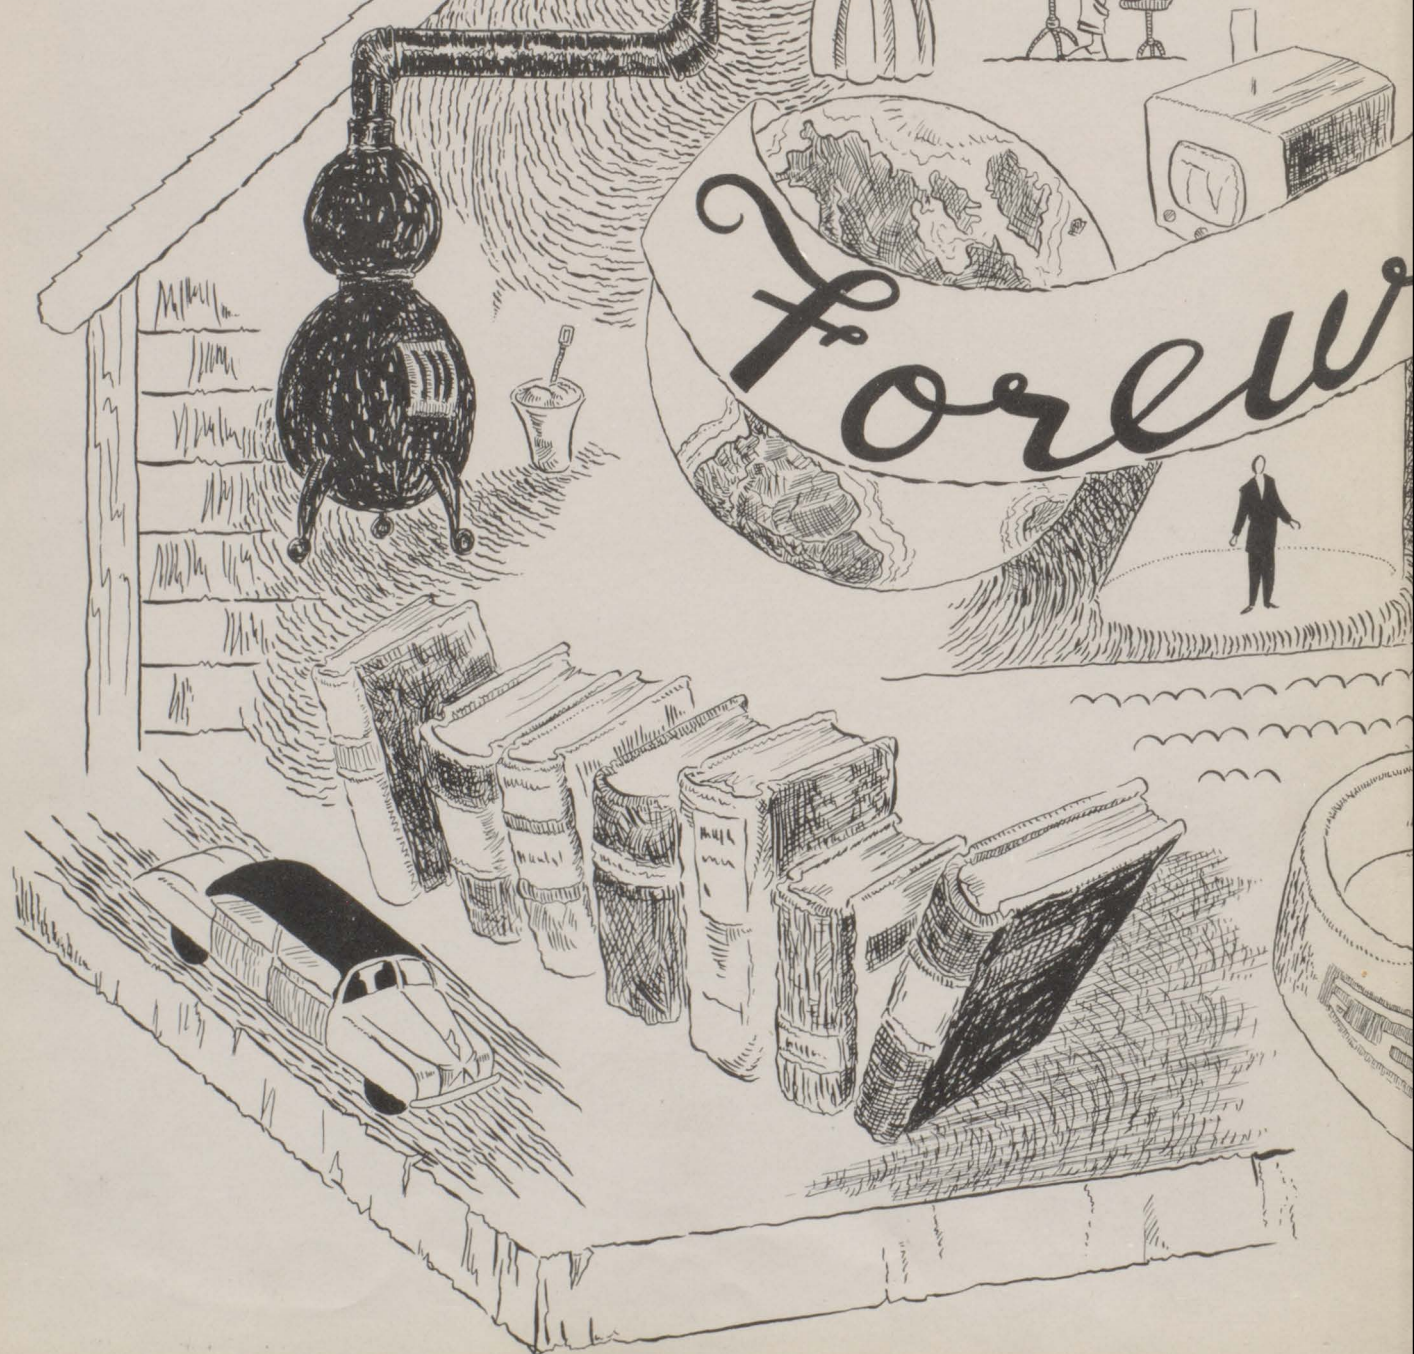

ies

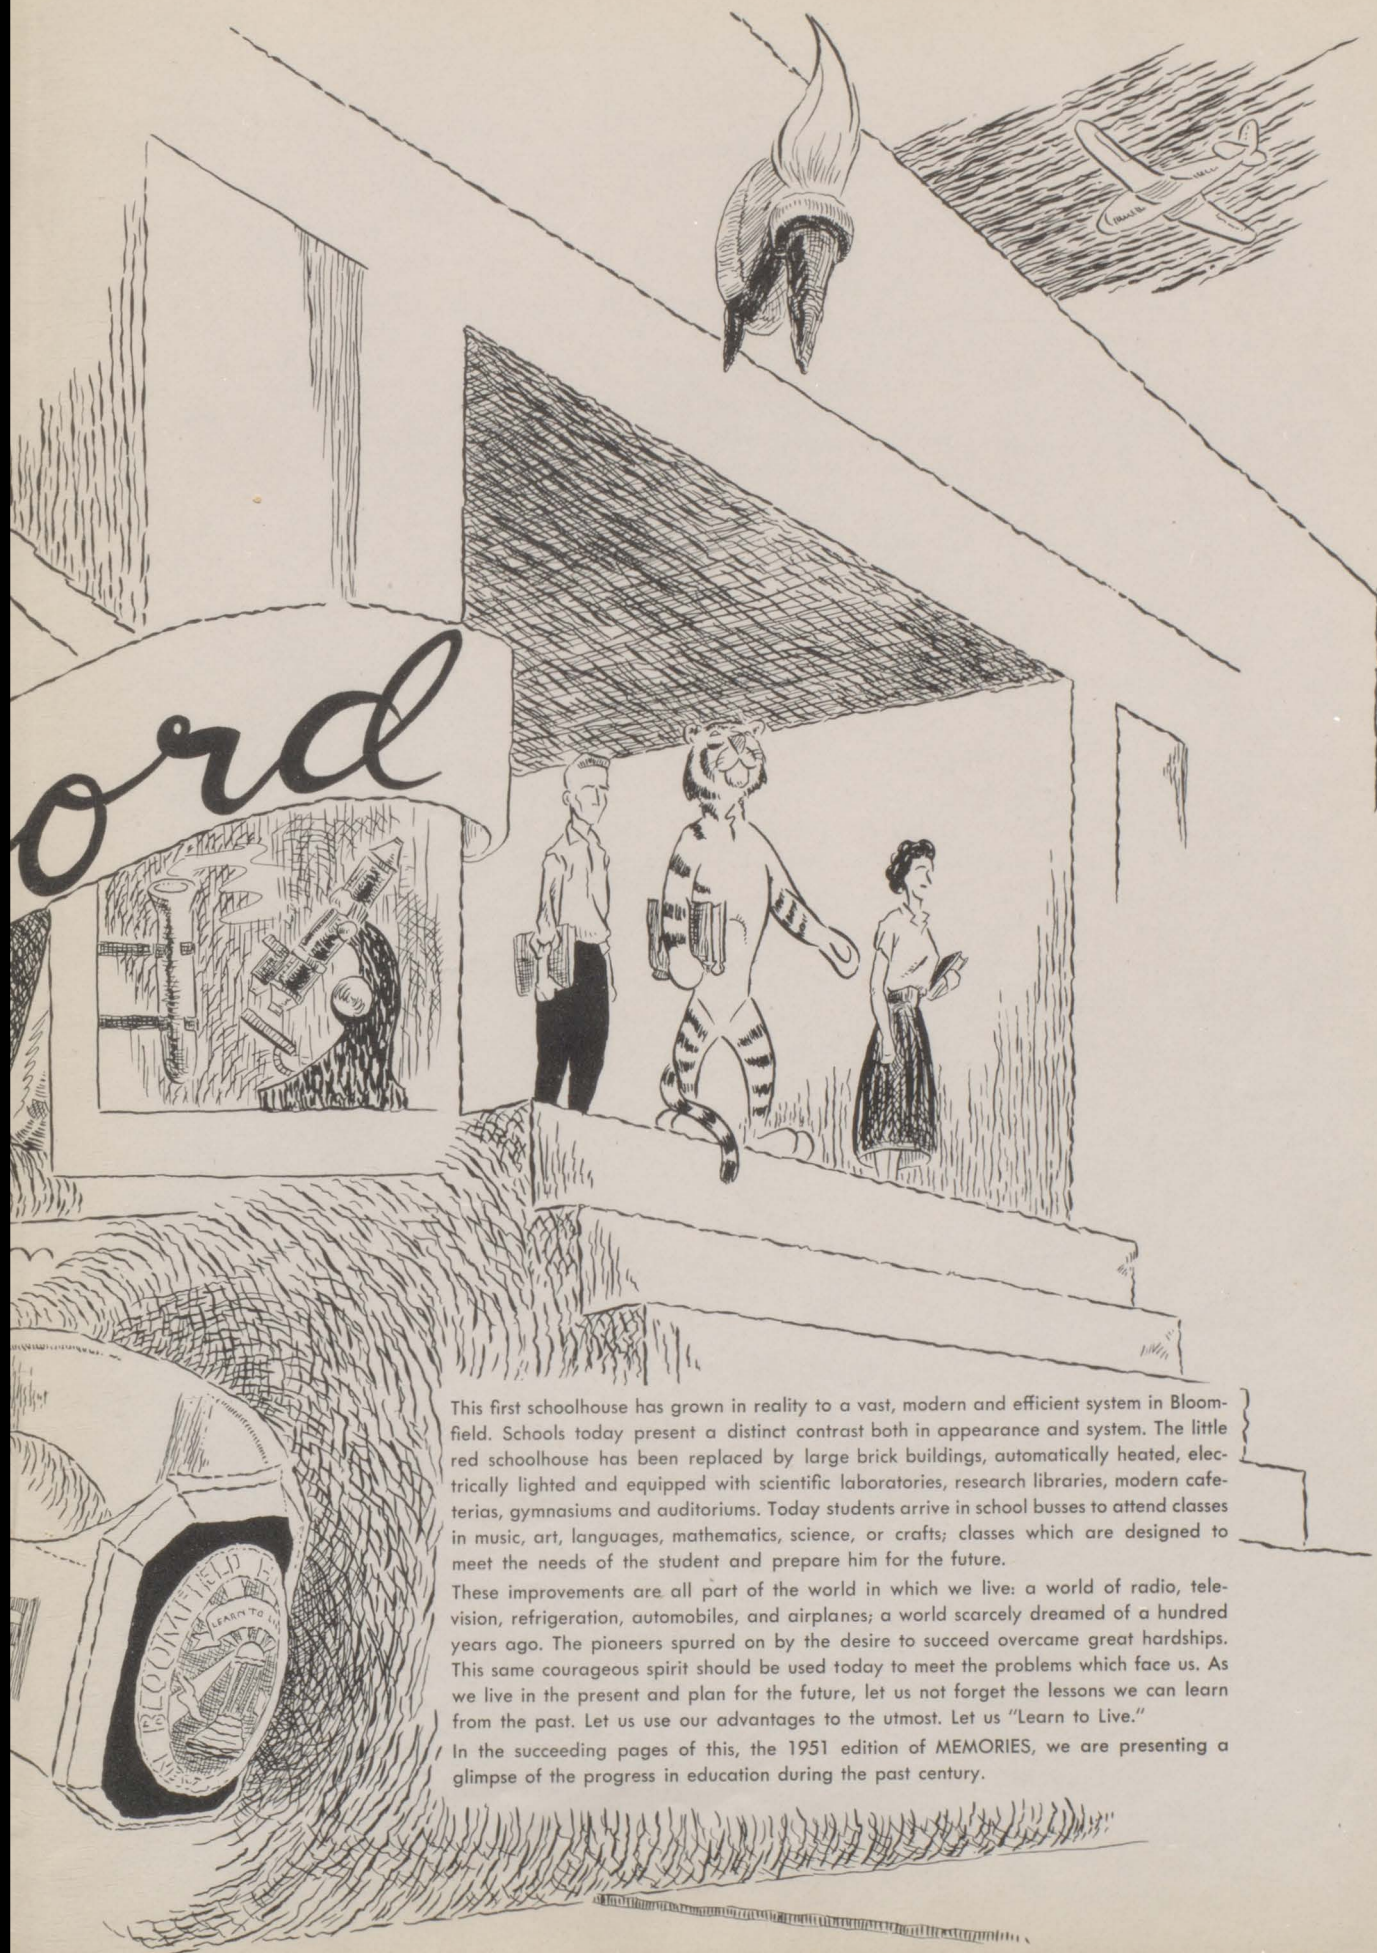

Boys and girls from six to sixteen: boys in high buttoned shoes, knee britches and stiff collars; girls in leg-of-mutton shirtwaists, dark cotton stockings and long, straight hair, trudged two or three miles through mud and slush to answer the call of the school bell that announced the opening of the new red schoolhouse on January 2, 1850. The black potbellied stove—the rough uncomfortable benches—slates and chalk—the rusty water pump—reading by oil lamps—the ever-present hickory stick—the three R's plus Latin and Greek—eleven classes in one building. Such was the atmosphere of this first public educational institution in our town.

This first schoolhouse has grown in reality to a vast, modern and efficient system in Bloomfield. Schools today present a distinct contrast both in appearance and system. The little red schoolhouse has been replaced by large brick buildings, automatically heated, electrically lighted and equipped with scientific laboratories, research libraries, modern cafeterias, gymnasiums and auditoriums. Today students arrive in school busses to attend classes in music, art, languages, mathematics, science, or crafts; classes which are designed to meet the needs of the student and prepare him for the future.

These improvements are all part of the world in which we live: a world of radio, television, refrigeration, automobiles, and airplanes; a world scarcely dreamed of a hundred years ago. The pioneers spurred on by the desire to succeed overcame great hardships. This same courageous spirit should be used today to meet the problems which face us. As we live in the present and plan for the future, let us not forget the lessons we can learn from the past. Let us use our advantages to the utmost. Let us "Learn to Live."

In the succeeding pages of this, the 1951 edition of MEMORIES, we are presenting a glimpse of the progress in education during the past century.

# Faculty

Who starts a lively class discussion on the shortcomings of the marking system? Who calls a club meeting at 7:50 A. M.? Who directs a night rehearsal for the Senior Play? Who trains the twirlers for a new routine? Who holds football practice until dark? None of our activities could be completed successfully without the guidance of a teacher. Today the teacher is a friend as well as an instructor to the student. How different a hundred years ago when "Readin', writin', and 'rithmetic taught to the tune of a hickory stick" was more than just a saying. The dunce cap and hickory stick played no small part in keeping the pupils in awe of the schoolmarm. Gradually the teacher became interested in the pupil as well as the subject she taught. Then fear changed to respect, aloofness to friendship, and compulsion to cooperation. Today the teacher and student stand united.

MICHAEL E. FRATE

Mr. Frate left us in December, 1950. His spirit will be remembered at B.H.S. for many years to come. Throughout his long term of faithful service in teaching the youth of our town, no one has exemplified the true spirit of kindness and patience more than did our teacher of Italian and history.

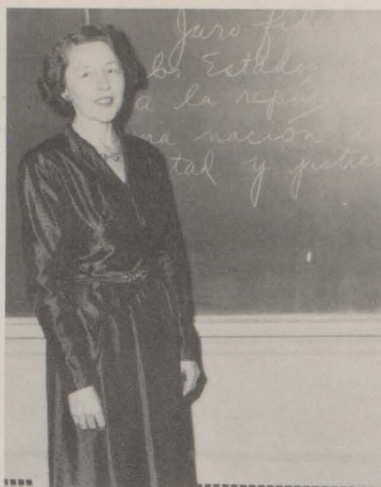

Mr. Frate, born in Delicito, Province of Foggia, Italy, came to the United States when he was nine years old. He was educated in the Newark Public School System and was graduated from Newark Normal School. After teaching there a short time he came to Bloomfield in 1919. Here he had remained until illness forced his temporary retirement last year.

In class his hearty laugh and benevolent smile became his trademark, but the greatest tribute that we who knew him best can pay to his memory is that he was a friend, a sincere, honest friend.

#### THE SENIOR HOMEROOM TEACHERS

When our senior homeroom teachers enter Bloomfield High School each morning, they step into jobs of great importance; yet they have found time to become acquainted with each of us individually. It was their perseverance and understanding that guided us helpfully through our three years in B.H.S. They have supported our class and its projects to the fullest extent of their abilities. We feel indeed proud that we have had such a fine group of people as this for our homeroom teachers. They have taken a personal interest in each student. Their sincere concern in what we did with our education is appreciated by all of us.

To our senior homeroom teachers, we, the Class of '51, say thanks for a job well done.

#### MISS BARBARA VAN PATTEN

"Why, of course, they're my girls," asserts our friendly, helpful Miss Van Patten, guidance counselor of all senior girls. Her office is open at any time, and many are the afternoons she can be found interpreting college applications for the bewildered, who cry, "Miss Van Patten, what do I do next?" Her wonderful sense of humor and perpetually crowded desk, filled with pamphlets, personality sheets and an ever-ready dictionary, are evidence of her outstanding efforts and interest in the girls. They will long remember with delight the times when they were called out of class to see college representatives. It didn't happen often, but what a pleasant experience when it did. Yes, Miss Van Patten, we thank you for all these things but most of all for your sincere interest in us.

#### MR. JAMES HAMPTON

The wit of the Guidance Department and an outstanding aid to senior boys is Mr. Hampton. Everyday our boys have been seen in his private office asking eagerly, "Mr. Hampton, do you think I could possibly get to college on a C average?" With a bellow he'll let out, "Great Caesar's Ghost! Boy, why didn't you study more?" Then with a ready smile he'll add, "Well, we'll see if we can help you out. Now, did you ever think of this?" Many times at our noisy class meetings he could be found saying, "Now if you don't stop talking, something mighty drastic will happen." Of course, a joke always follows, but along with it the sound advice of a man we admire and whose guidance we appreciate very much.

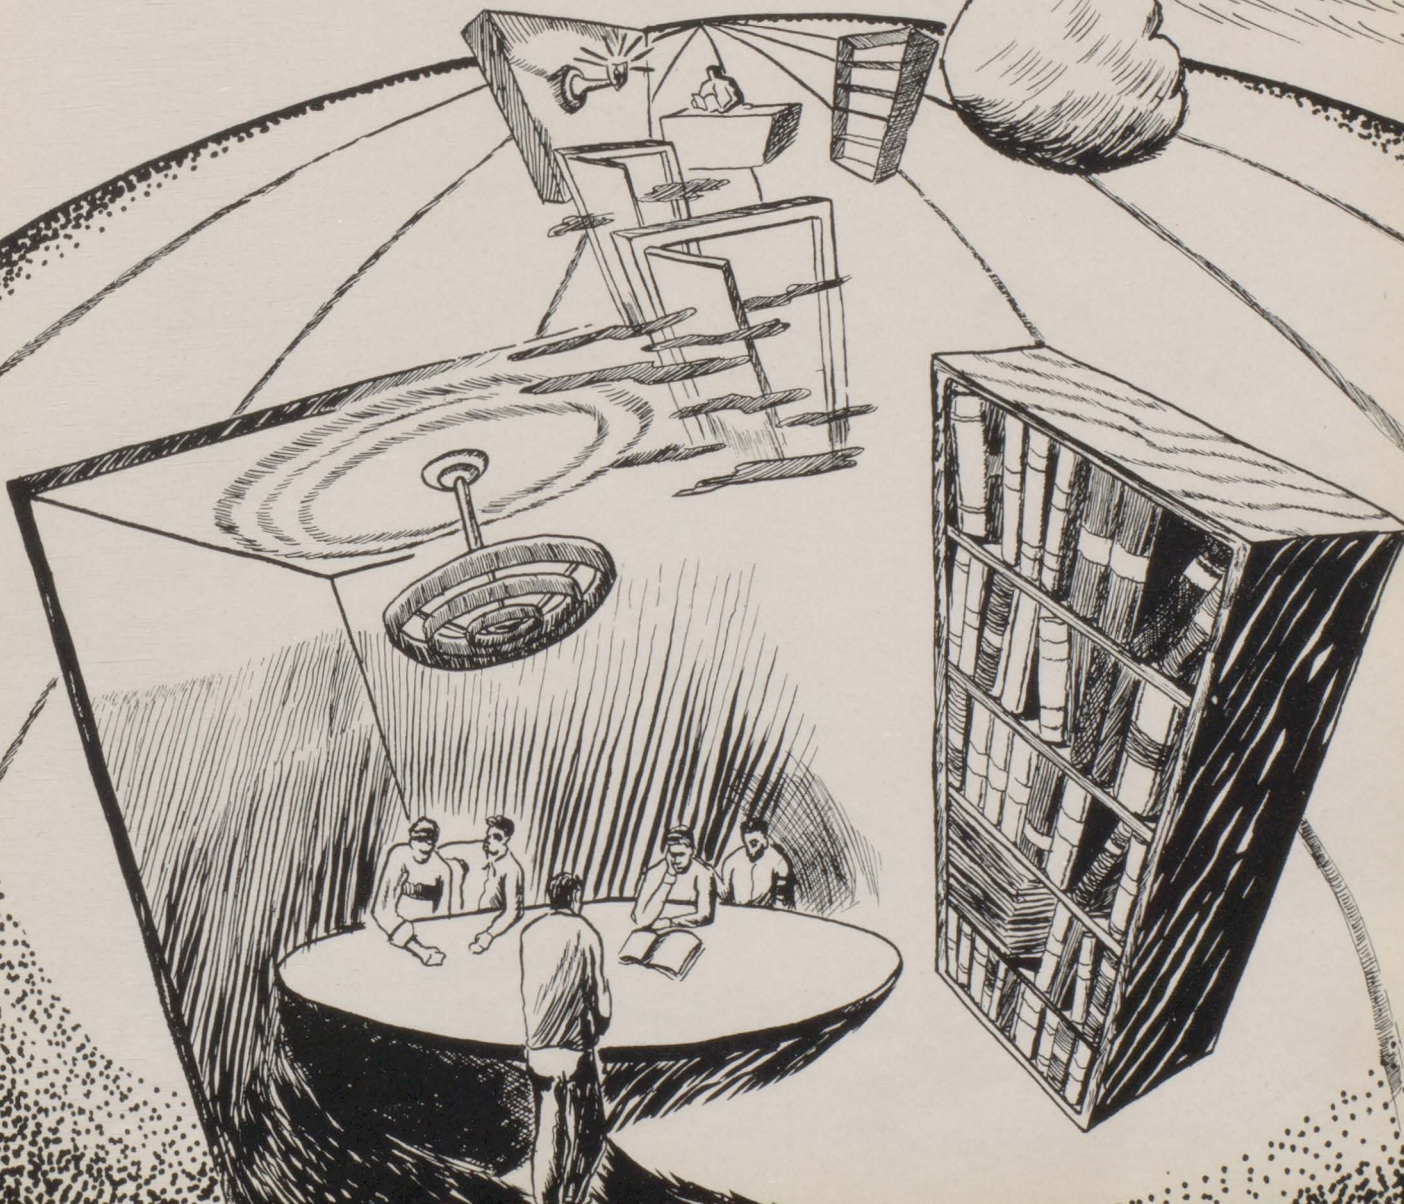

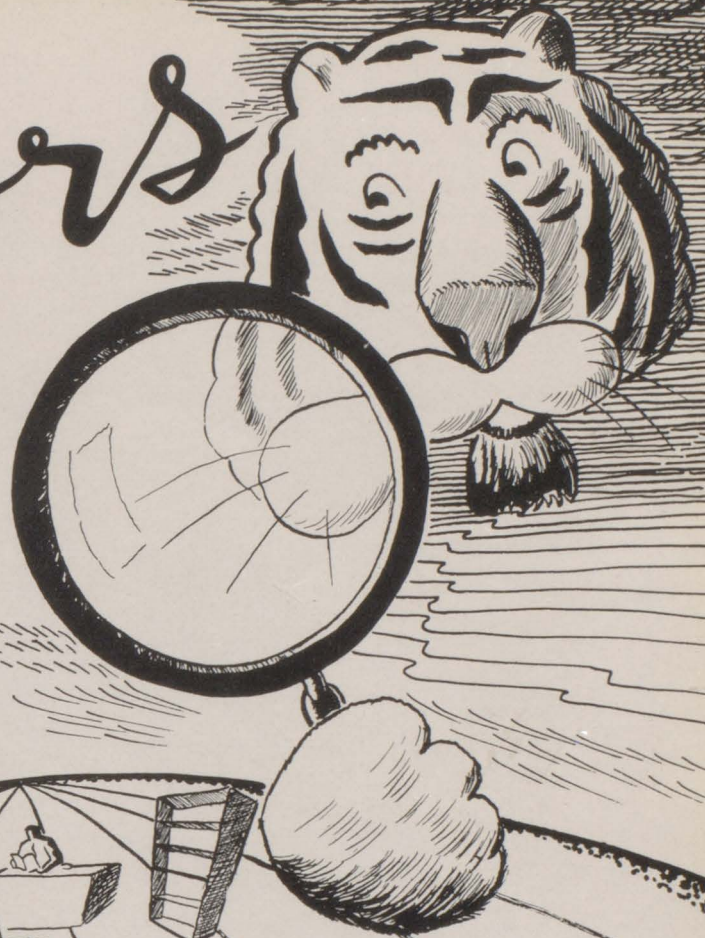

## Guidance

# Seniors

One hundred years ago a stately school master stepped out of his new school house and rang a brightly polished bell. Pupils from the whole vicinity ran for the line which led into the school. This incident marked the beginning of free public education in Bloomfield. In the past century vast strides forward have been made, creating a spirit of cooperation between the students. The lone precious, torn, ragged book of the early pioneer has been replaced by volumes of information and research today.

We have lived and learned together for three years, not only in class, but also in our extra-curricular activities, sports, and even in our sessions at the lunch table. The MEMORIES of 1951 will long linger in our minds and hearts as tangible evidence of our high school achievements. In the final outcome our high school education will be only as valuable as we make it.

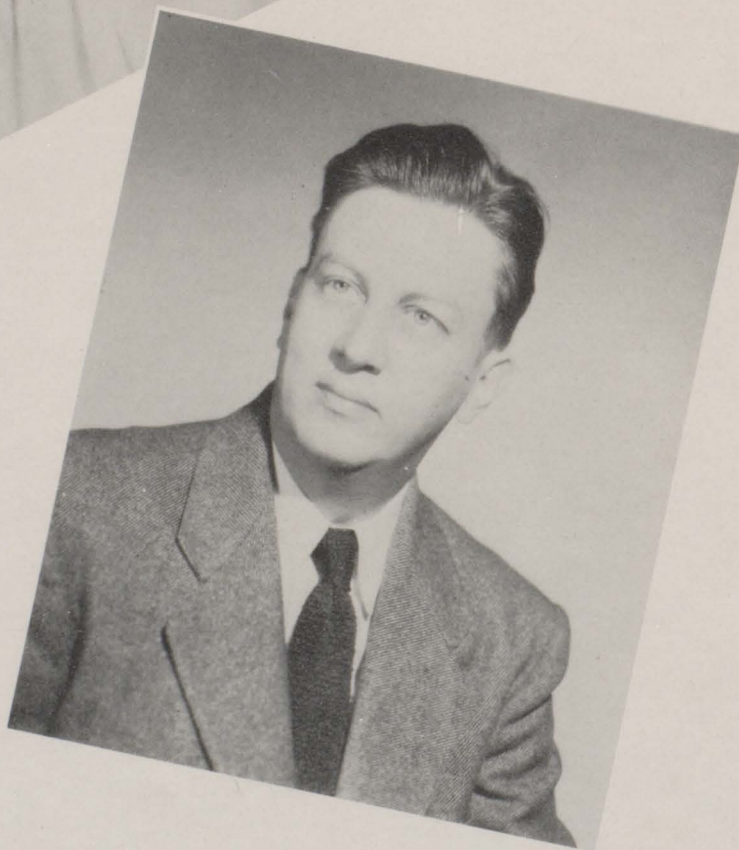

#### MISS REGINA GARB

Luck was with us when Miss Garb was appointed our adviser. Without her fine judgment and advice, what would have happened to our activities? Her interest in the success of the Mardi Gras — the Junior Prom — the Hay Hops — the Christmas card sale — and the Senior Play — was as great as our own. As we recall our high school days, we will always think of Miss Garb as one of us.

#### MR. PAUL LOVEN

Our friend as well as our adviser, that's Mr. Loven. He was always ready to give us a helpful word of advice and to pitch in and help with the work. Who else would have had his patience in the measuring and distributing of caps and gowns? Thanks, Mr. Loven, for the assistance you have given us in the past three years.

The many busy seniors bustling around doing lay-outs, typing, completing write-ups, proof reading, and arranging material in chronological or alphabetical order comprise the several staffs of MEMORIES. Our editors had a nerve-racking time trying to get everything in order for the deadlines. The Literary Staff members will doubtless remember the many grey hairs they got trying to find the right number of words for a write-up and piles of proof reading bestowed upon them. It would be interesting to know just how many words the Typing Staff had to type and retype. The Art

Staff had great fun while they were making sketches and doing lay-outs. If the Photography Staff had ever managed to get a complete group together at one time for a picture, it would have been nothing short of a miracle. We would never have gotten along without our Auxiliary Staff for they did all our odd jobs.

We deeply appreciate the help and leadership we received from Miss Drake, Miss Fischer, and Mr. Willever. Without their assistance we could not have made our yearbook a success.

## The Senior Play

Our feet danced and our hearts sang when we gave our senior production, "Our Hearts Were Young and Gay," by Cornelia Otis Skinner and Emily Kimbrough, on December 8 and 9. This uproaring comedy about the fun-loving, naive, Emily, and worldly, dramatic, Cornelia left the audience with pains in their sides and tears from laughter. Some of the most outstanding scenes were the bed bunk scene, the session of measles on board the ship to France, bedbugs in a French boarding house, and the dramatic monologue of Cornelia's, when her true acting ability is discovered.

To Miss Hynson goes the thanks of the senior class and cast, for it was her own youthful spirit that gave such inspiring direction.

This was the cast in order of their appearance, Steward, Richard Gay; Mrs. Skinner, Mary MacDonald; Cornelia Otis Skinner, Barbara Treacy; Otis Skinner, Stan Calvin; Emily Kimbrough, Evelyn Kauffeld; Purser, Art Bell; Stewardess, Edith Fornarotto; Dick Winters, Sheldon Kag-anoff; Admiral, Joe Yasko; Harriet, Sally McCann; Winifred, Valerie Jelene; Leo McEvoy, Bob Horn; Inspector, Mary Alice Smith; Therese, Mary Ann Proto; Madame Elise, Betty Pettine; Monsieur de la Croix, Joe Mack; Window Cleaner, George McFeeley.

OUR REMBRANDTS

MY, HOW THE STYLES HAVE CHANGED

At times the cast is thought of as being the whole play, but not so. Without the numerous hardworking committees, the play could not have been given successfully. They were the ticket committee under Mr. Klein, the art committee, to whom we owe our beautiful scenery, supervised by Miss Fischer, the make-up committee under Miss Courtney, the stage crew with Mr. Minchen as stage adviser, publicity committee under Mr. Douksza, prop crew under Mr. Sutton, the costume committee directed by Mrs. Montgomery, the advertising committee supervised by Mr. Max Klein, the prompters, the poster committee under Mr. John J. Douksza, and the typing committee. Each committee, in its own way, helped our class give one of the best senior plays that Bloomfield High has ever witnessed, and not only that, what fun and satisfaction we had doing all this.

BEHIND THE SCENES

# Activities

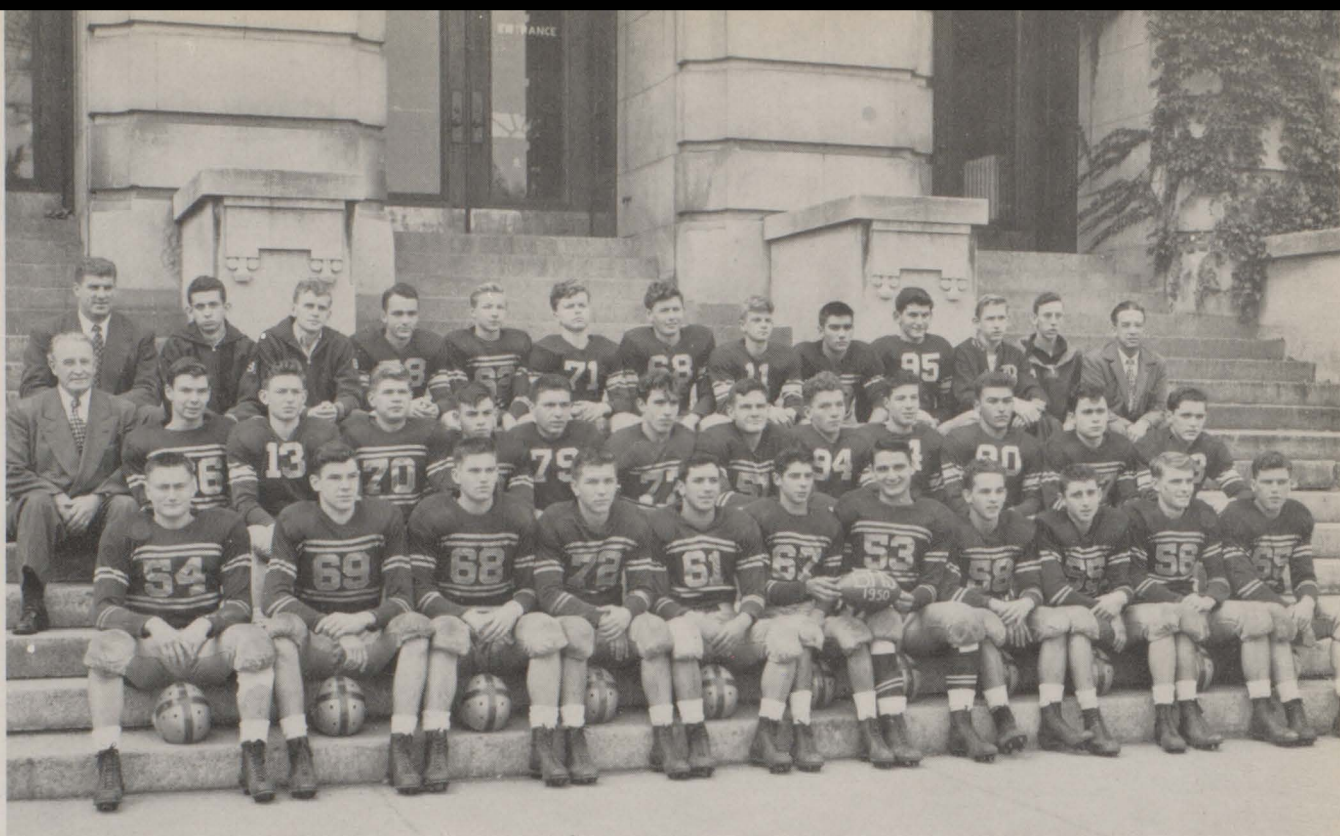

How many times have you trudged wearily home after football practice? How often have you come sleepily to school at 7:55 for a club meeting? When did you last write an assignment for MEMORIES or the STUDENT PRINTS?

As a small stream gains momentum and gradually swells into immense waves, so have activities grown from an insignificant place to a prominent position in our school life.

During the past century book learning was the sole aim of education. As the years rolled by, the need for a well rounded education was realized. Today science and language clubs, dramatic and musical presentations, varsity and intramural sports and rallies are the outward signs of this social aspect in school life.

ART PILCH

After looking like a championship combine for a while, the Bengals seemed to fall apart at the seams. However, it should be recalled that injuries plagued the squad, and it never did manage to get everybody off the injury list. This can be one of the many things on which the Bengals' defeats can be blamed. Among the numerous players injured, there are some who couldn't be replaced. In the opening game Art Pilch injured his hand, Art Ulrich damaged his knee, and David Kolodin received a head injury. This left the Bengals with both of the first string flankers on the bench. In the later games during the season numerous players received minor injuries and had to sit out a game or two. Fred McKirachan, Bob Pascal, and Al Barrows were among the players who missed action for a while. Bob Pascal, the workhorse of the team, left open during one of the games a pair of halfback shoes which were hard to fill. In the Nutley game, when quarterback Al Barrow was knocked cold and received a brain concussion, it looked pretty dark for the annual affair with Montclair.

All told, the Bengals ended up with four victories and five setbacks. The Bengals topped the Belleville Bellboys 16-6, shut out Paterson East Side Ghosts 6-0, squeaked a 14-13 win over the Central Highstreeters, and downed Kearny 28-14. The Bengals were put down by Lincoln in the opener 18-13, and, after winning four in a row, lost four straight, being defeated by Garfield 13-6, Irvington 28-13, Nutley 13-0, and walloped by Montclair 40-0. The last defeat is one of the worst that Bloomfield has received at the merciless hands of Montclair.

The Bengals have racked up 93 points against their opponents, while the opposition has tallied 145 markers. However, this looks a lot worse than it really is. The Bengals lost two of their games by one touchdown or less; and with the breaks falling on our side, it might have made the difference and enabled Bloomfield to emerge the victor. A four and five record looks pretty sad for a team which once was hard to stop.

Returning veterans next year should continue to improve and add a lot more victories to Coach Foley's string, which as a result of the last campaigns has risen to more than 200 victories. The coach has one of the best records of any high school coach in this state. We hope that he will have continued success in his future efforts.

## *The Band*

It was the end of the half and once again time for our wonderful band to make its appearance on the field. What will the formation be today was the murmur heard throughout the expectant crowd, waiting for the moment when the band members would march down the field. What a show that umbrella formation, complete with a rainmaker, was when it was performed to the tunes of "Stormy Weather" and "Powder Your Face With Sunshine." The sleigh formation presented together with the Montclair Band at the Thanksgiving game was tops, too. Everybody enjoyed the band's fine renditions of those old Mexican favorites "The Mexican Hat Dance" and "La Raspa" given for the Spanish Pageant.

The work of the band did not end with the close of the football season. As usual, they presented their annual concert, played for many school assemblies and rallies, and marched in town parades. Several small ensembles entertained at civic functions throughout the year.

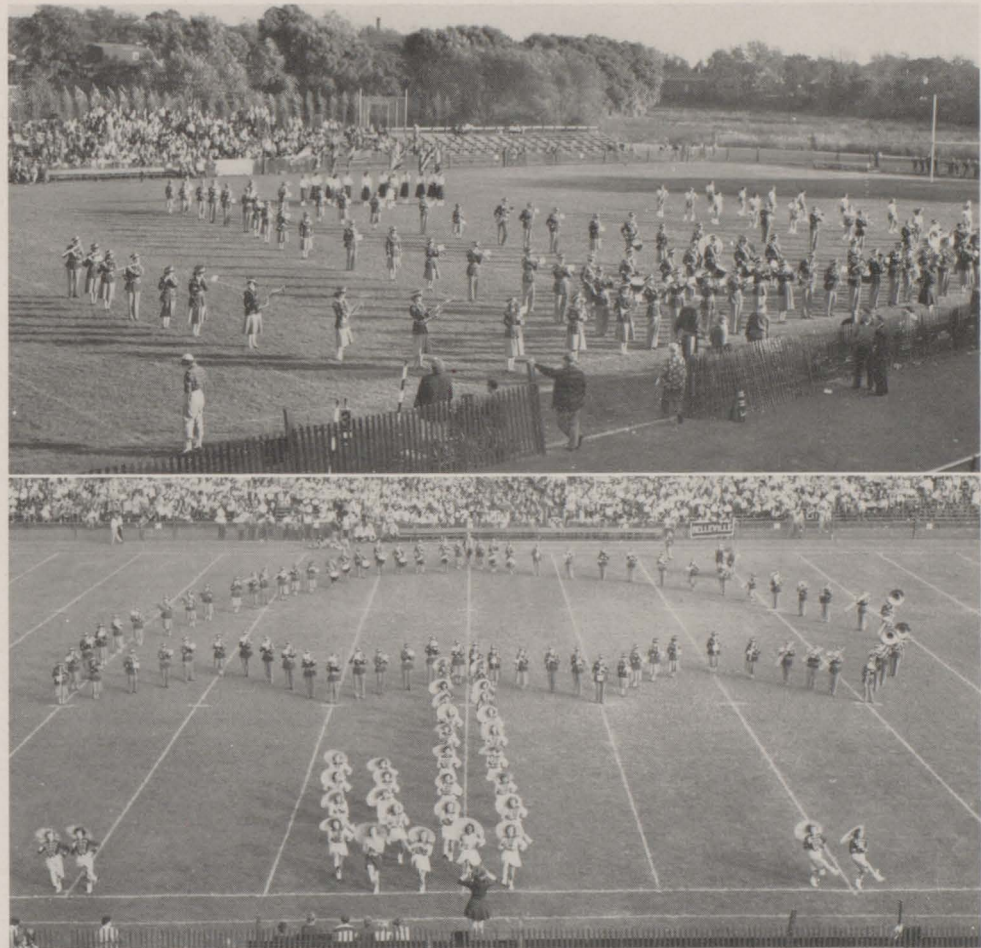

Much credit is due Mr. Hartman, who worked so long and conscientiously with the band, and to the bandmembers themselves who spent many hours rehearsing to make the B.H.S. band what it is today.

Take me out to the ball game.

The spectators rise, the National Anthem is played, and out on the field our colorguard stands at attention, proudly displaying the stars and stripes. The glimmer of metal in the sunlight — twirling batons. Who can forget the twirlers' cute routines to "Stormy Weather," "Take Me Out to the Ball Game," and "When You Wore a Big Red Rose?" Their pert uniforms and tricky routines make them an excellent show during half-time.

Sophomore Bob Nardone takes one of the boards for the Bengals.

## Basketball

This year's basketball squad has just cause to be very proud of itself since it has compiled one of the best records for a long time. An excellent one of thirteen wins and only three defeats is the Bengals' mark. The Cellamen were seeded third in the annual county tournament in back of Belleville and Seton Hall. In my opinion we should have been seeded ahead of Seton Hall since I believe we played a tougher schedule and had a better squad.

The Bengals' three losses came at the hands of Columbia, Belleville, and Weequahic. Important victories included those over West Orange, Barringer, Irvington, Orange, Central, Montclair. Other minor victories included Paterson East Side, Clifford Scott, Morristown, Ridgewood, Garfield, Nutley, and Glen Ridge. In the Glen Ridge game, Co-Captain Dick Conroy broke a high school individual scoring record for a single game with forty points.

Another important player in the Bengals' offense was Barry Prince, who played center and was one of the chief reasons for the success of the team. Joe Gasperini also was one of the chief scorers and best defensive men on the team. Other players who rounded out the squad were Bob Nardone, John Bukowski, Jim O'Donnell, Bob Paschal, Charlie Reindl, Lou Lento, and Tony Sarno.

### Bengal Golf Team

Another very popular sport in America during the spring is the game of golf. This game is also represented here at the high school in the golf team. This team is coached by Mr. Claxton, and the squad enjoyed quite a successful season. Dave Hoffman led the team through the season ably assisted by Bob Axt. Dave was highly praised by many pros from nearby courses and should develop into one of the best players Bloomfield has ever produced. Bob Axt won the intramural golf championship and as a result of his victory over Dan Finnegan is the present champ.

This year's Bengal nine was one of the better teams that the high school has produced in more recent years. The team wound up with a record of five victories and five setbacks. The record doesn't appear to be very good; but compared to recent years, it is. Many of the easier games were rained out. Some of this year's seniors were John Bukowski, ace moundsman; Stan Lipinski at first base; Tony Sarno, who held down the hot corner; Allie Barrow, who did a fine job at short; Ernie Zarro, catcher; Bob Stagg at the keystone sack; and Staunton Gerns and Fred Klein in the outfield.

## Track

Last year's Track Team really came along toward the end of the season and took almost all the dual meets they entered. A great deal of credit should be given to the coach of the squad, Mr. Warren Lowans, who in his freshman year as mentor of the team has done such a terrific job. As a result of his driving the team during practice, the squad was in good condition throughout the season. The team, although hampered by the lack of consistent scoring in field events, scored enough in the running events to offset the points lost. The Bengals lost their first dual meet to Clifford Scott High School by 70½ to 46½. Undaunted by this setback, the boys won their other three dual meets for a three and one record for the season. They defeated Clifton 49 to 37, Newark Academy 62½ to 36½, and West Side 61 to 56. The team was led by Frank Oglesby, who won the county half-mile. Other outstanding performers, such as sprint man Alex MacMullen, Captain Russ Glatz, Ron Kesling, and Fred MacKirachan, who will lead this year's team.

## Fencing

The Fencing Team here at Bloomfield High School was long considered a minor sport. The team, under the leadership of a new coach, went on to win a state championship and become the most feared team in the State. The previous fencing teams have taken two out of the last three state championships. We are confident that the team should be able to cop the title once again. The Bengals were finally eliminated in the Metropolitan Meet by the ultimate victors. They will be hard to beat this year even though last year's team graduated to leave Coach Surdi with no veterans to build a team around. The school will depend on Chuck Schober, John Brink, Augie Belloti, and Tom Maresee to bring back the championship. Butler, Snyder, South Side, Dickinson, and the Army Plebes have all fallen victim to the Bengals while Barringer is the only team to defeat our fencers.

## Tennis

The Bloomfield Tennis Team is another one of the spring sports at the high school. The tennis team hasn't been able to bring home any trophies or championships like the football, basketball, or fencing team, however. The team is led by the seniors, some of the top ones including Co-Captains Dick Conroy and Freddy Smith, who are number one and number two men, respectively, Sheldon Kaganoff, number three man, and Bob Horn. The team is coached by Mr. Cabot Kendall, who devotes his spare time to developing the boys into good players. The team finished with more losses than wins last year.

## Intramurals

The extensive intramural program here at the high school provides everyone with an opportunity to participate in any sports that they might be interested in. The boys may play golf and bowl during the fall, basketball and softball later in the year. The girls may play hockey, ping-pong, basketball, softball, swimming, and numerous other sports. Co-ed sports include ping-pong and badminton. These sports are under the direction of Mrs. Myra Seeley and Mr. Norman Claxton. The students also help to direct the activities as much as possible.

Meeting in the gym office are Barry Prince, Mr. Norman Claxton and Jerry Stoicovy.

Lew Lento and Jim O'Donnell give with the signs while Barry Prince keeps score for the Early Bird Basketball League.

## Bowling

Joe Zack (right) shows how, as Jim Bailey (left) looks on.

The Bowling Team of Bloomfield High School is one of the newest at the high school. In its first year of competition the Bowling Team has given a creditable account of itself. The students have shown a great deal of interest in the sport, even though it is not a major one. It is a good chance for them to gain experience so that some day they might be champion bowlers. The first five are Andy Jahera, Joel Sharenow, Joe Zack, Charley McFeeley, and Andy Polenski. All home contests are played at the Broad and Bay Bowling Alleys.

## Cross Country

Another State Championship has been brought to the high school, this time by the victorious Cross Country Team. The boys walked, we should say "ran" away with top honors and the State Novice Championship. Bob White, a junior, who should be the nucleus of next year's squad, led the team to its victory. In the past, Bloomfield's harriers have been nothing to brag about and a good coach was often lacking, which may have made a difference. This year, however, the coach, Mr. Arnsdorf, is to be highly congratulated on his fine work in bringing the boys into top form. This team is probably the best in a long while, and we hope that it won't be the last. Besides Bob White, there are Roy Leppla, Captain Bill Mills, and John Pemberthy and Larry Decker, all of whom have done a fine job.

"Come on, get it over!"

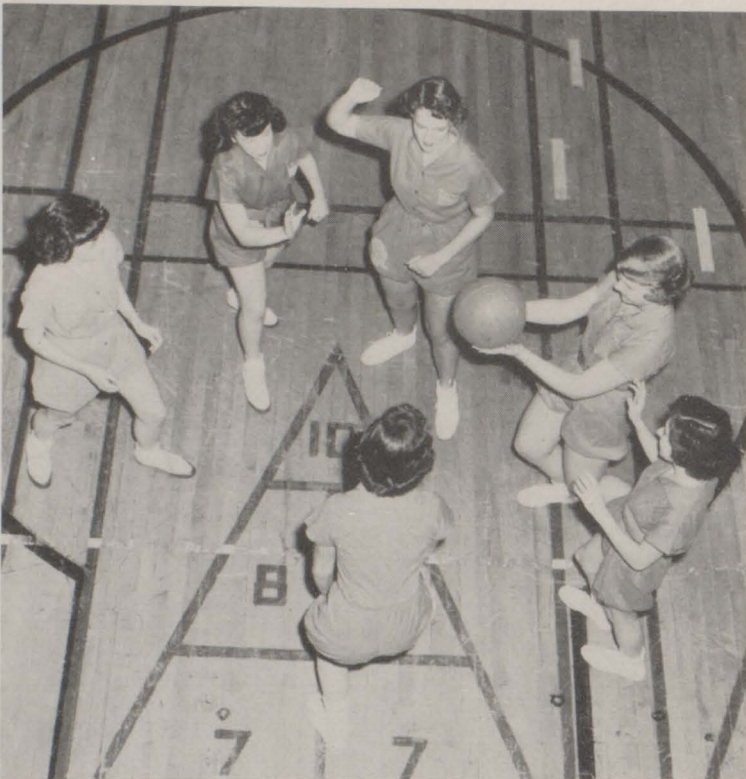

Mrs. Myra Seely

### MRS. SEELY

None of us who participated in even only one intramural sport will ever forget Mrs. Seely, the guiding light of this program. Her wonderful assistance and kindly help came in handy many a time on those Wednesday afternoons which she so willingly gave up during the year. From the very first hockey game in the fall until the end of the softball season in the spring, she was there to referee the games, if necessary, or give us very helpful pointers. Thank you, Mrs. Seely, we'll never forget all you've done for us.

## *Leaders Club*

The Leaders Club, under the direction of Mrs. Seely, was organized for the purpose of planning better and more interesting gym classes for the girls. The club is composed of a captain, checker, equipment manager, and approximately eight squad leaders elected from each girls' class.

At their meetings the members discuss the activities to be scheduled and any problems found in class. Their biggest project this year has been the sale of pins and Bloomfield High School car plates.

The officers are these: Joan Kalinoski, President; Catherine Recenello, Vice President; Nancy McLoughlin, Treasurer; Olympia Corra, Secretary.

## *Basketball*

Of all the many sports offered the girls at B. H. S., basketball always rates first on their sports parade. A gym filled with 120 girls every Wednesday afternoon during December, January, and February proves the popularity of basketball. Competitive spirit and rivalry between the classes reach its zenith as the tournament draws to a close. As the members of the winning team of each class stage the play-off, first to the mind of each girl arises the question, "Will I be the girl to win the silver basketball?" This year the proud possessors are the Sophomores. They will be presented their basketballs in April at the Gym Exhibition.

# Girl's Sports

## Baseball

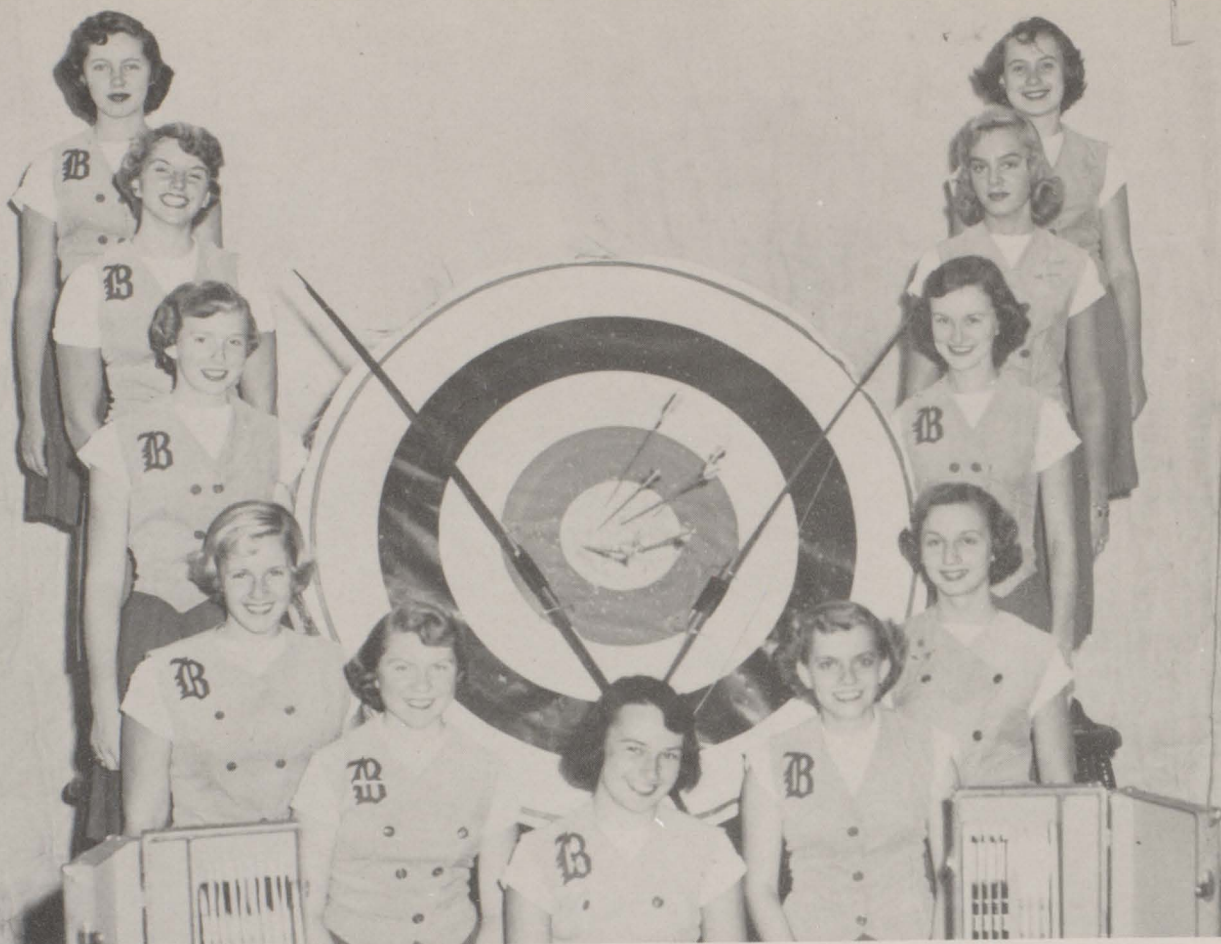

With the arrival of spring also comes the yen for baseball. This is not only a sport which entertains the girls during the spring months but also provides many laughs for the crowd of spectators who choose to adorn the railing by the side of the school. However, very often they are surprised when one of the more powerful girls decides to pack a wallop. The girls, under the leadership of Mrs. Myra Seely, look forward to these sunny Wednesdays as a time to relax after a day's work.

Atop the many laurels achieved only by the patience and leadership of Miss Russell is the B. H. S. Archery Team. The high standards and success of these thirty girls are well known everywhere. Their ability to work as individuals and also as a team results in the honor of being the only High School Archery Team to acclaim the title of National Interstate Archery Champs for eleven consecutive years.

### MISS RUSSELL

The guiding spirit behind the activities of the Robin Hoods and the Gym Teams is Miss Russell. Her untiring efforts, her training and instruction have produced teams of which Bloomfield High School can be justly proud. Few people who are not connected with the Gym Team Exhibition realize the tremendous amount of work which it entails, such as the preparation of routines for the Senior and Junior Gym Teams, the Rockettes, the Drill Team, and the tumbling team; the coordination of all phases of the routines; and the designing of costumes. The senior girls who have worked with Miss Russell wish to express their admiration and respect and say, "Thanks for a job well done."

## GYM TEAMS

To perform a perfect chest stand on the parallels, a flying angel on the rings or a cart wheel is the goal of the 168 girls of the Junior and Senior Gym Teams. Their Tuesday and Thursday afternoons are spent practicing diligently for their annual event, the exhibition in April.

#### MILITARY DRILL

Clad in green jackets, plaid kilts, and Scottie hats, thirty-two lassies marched into Foley Field to the strains of "Swinging with the Scots." Their first appearance was well applauded by the spectators during the half-time of the Bloomfield-Irvington football game in October. Since that time they per-

formed at Madison Square Garden in November and also between the halves of the Bloomfield-Clifford Scott basketball game. Next on their agenda will be a trip to Bear Mountain in the spring where this Drill Team of B. H. S. will perform by request.

Looks Over Merchandise

"Penny Pincher's Paradise," the school store, is backed by the faculty, sponsored by the Student Council, and run by students who are taking Distributive Education. The store specializes in stationery items and wearing apparel. The students who work in the store apply the practices taught in their course. In the classroom they learn how to make a sale, make correct change, record sales in the cash register, check incoming merchandise, price merchandise, check invoices wholesale, and arrange displays. Knowledge of these procedures and time spent working in the store prepare a student for an outside job in which he will feel experienced.

## *Student Council*

### Student Council

Neil McLaughlan, President, taking charge of the meeting

Voting—Donald Johnson

The Student Council under the supervision of Miss Regina Garb and Mr. Andrew Powers, has been an active body of student government accomplishing almost everything it attempted to do. In the fall a new idea was introduced, a football queen. Four senior girls, three junior girls and two sophomore girls were chosen in a primary election. A general election was then held and Cli Xenitelis was crowned queen at the Football Dance. The complete revision of the point system and re-evaluation of the worth of each activity now enables everyone to participate in as many activities as he wishes. Awards are also being given to encourage good citizenship.

The canteen and its excellent entertainment, which gives us a place to have fun on Friday nights, is also a result of the Council's efforts.

During the year the Assembly Committee scouted around and came up with the following paid programs: "The Story of a G-Man," a speech by Dr. Foster, the New York Negro Quartette, The Bucknell Glee Club, "It's a Date," and the Novelty Revue.

To raise money for Air Raid equipment the Shamrock Shindig was put on the night of March 17. There was dancing in the boys' gym, and archery demonstration and Military Drill exhibition in the girls' gym, a variety show in the auditorium, with fortune telling, cake sales, weight guessing, white elephant sales, and games of skill going on in rooms throughout the school. The result was a great turnout for a worthy cause.

To find out how other student councils worked, delegates attended the following conferences: The New Jersey Association of Student Councils at Rutgers, The Columbia Teachers College Conference on Civic Competence, and The New York City School Conference on Press and School Government.

STUDENT PRINTS STAFF—Left to Right, Standing—Mrs. Conroy, Bill Vanderhoof, Nick Picciano, Ray Dinnerman, Neil MacLaughlin. Sitting—Cynthia Pomeroy, Anne Sweeney, Rae Stollop.

The "Student Prints," the school newspaper, has the responsibility of presenting news to the students both interestingly and accurately.

Seven students make up the editorial staff of the paper and three managers take care of the business end. They are the editor-in-chief, associate editor, feature editor, sports editor, exchange editor, art editor, and photography editor and the advertising manager, circulation manager, and head typist. The duties of the page editors include making assignments, planning pages, and editing material. The exchange editor is in charge of writing to other high schools for their newspapers and sending out copies of the "Prints." The art editor and his staff draw the cartoons, which go with the editorials, and the photography editor takes all of the pictures in the paper. The advertising manager canvasses for advertisements, the circulation manager is in charge of the number of copies printed and their sale, and the head typist supervises the girls typing the written material. Mrs. Agnes M. Conroy is the adviser for the staff.

Besides putting out the paper, the editors usually attend several conferences throughout the year. They deal with improvements that can be made on school papers, campaigns that should be staged, or techniques that should be developed. The most important of these is the Columbia Scholastic Press Conference held annually in March at Columbia University. Discussion groups meet the first two days of the conference to compare newspaper experiences and to determine good journalistic standards. The conference closes with a dinner at the Waldorf Astoria.

All of the good ideas formulated at the different conferences are brought back to the paper and used to make the "Student Prints" a better paper. It is the aim of the editors and the staff to plan issues that will appeal to its readers.

## *Operetta*

When spring returns to B.H.S., song reappears also in the form of the annual operetta. Sponsored by the Music Department, this musical is one of the highlights of the year and another means of student self-expression. Last year the professional field was entered when "The Red Mill" was given. Many of us took part, if only by singing in the chorus, while some, though only juniors, were fortunate enough to acquire leads. Those from our class in major parts were Gertrude Frank, Evelyn Kauffeld, and Frank Munley. Though musical comedy time has not rolled around as yet, "The Fortune Teller" holds the prospects of another fine operetta.

## The Orchestra

From the sweetest violin to the loudest drum, our orchestra is one of which we can rightly be very proud. The unselfish efforts of all its members, the necessary talent, and the many different instruments are combined and trained under their expert leader, Mr. Hartman.

We will all remember their grand job of accompanying the operettas each spring, and how beautifully they played at the annual concert.

How could anyone ever forget their slick version of "Sleigh Ride" in the Christmas show this year? That's just one example of their work. So to the B. H. S. orchestra, the Senior Class wishes to say, "Thanks and good luck!"

### A Capella Choir

Whenever we walk past the doors of the choir room, we hear the lovely strains of music coming from the choir. Adherence to pitch is one of the requirements of this selective group. Such organizations as the Red Cross, Optimists Club, P. T. A., and the Cedar Grove, Brookdale, and Brookside Schools have enjoyed the performances of this fine organization.

### The Swing Serenaders

Man alive! If you want to hear something really keen, just turn your ear toward the Swing Serenaders. You'll be jumping with jive in a minute. Whether you want your music slow and dreamy or bursting with bop, this group of master musicians can play it. Much credit is given to Mr. Hartman for the superb job he has been doing with the Swing Serenaders. You can count on our swing band to come through with a great job whatever the occasion.

When voices that make music mingle and pianos play polonaises, it must mean the Musical Monday Club is in session. Miss Edith Albinson and Miss Katharine Williams, advisers, lead this selective, talented group. Its main function is to appreciate music and perform for each other in order to re-

ceive constructive criticism. Since but twenty members are received in the Club, the students of the past year nominate and elect those desired. The informal touch is inserted by having evening meetings at the homes of members, until May, when the final concert is given.

# Tomo

In a hundred years our country has progressed culturally as well as economically. History down through the ages has proved that the opportunities for pioneers in all fields of creative enterprise are limitless. The establishment of a land of free enterprise and a home of the brave by our forefathers has with God's will become our heritage.

Oft times man's disposition burdens and possesses him with cravings, cravings which are as old as history itself. Progress may be considered quite often the results of this craving in man. His effort to satisfy or justify his desires lends to the development of better things in industry, culture, and economy, along with a betterment of his living standards and well being. The pioneers of 1851 started a small public school in the town of Bloomfield. This same courageous spirit should be used today to meet the problems which face us. Today, 1951, similar pioneering is evidenced in the effort to add new, valuable courses to our educational program.

The periodic addition of new courses to present day educational programs opens to the seekers of knowledge vast fields of boundless knowledge. Education has been and still is that instrument which will serve as our sword in upholding our heritage, that heritage to which pioneers in all fields have contributed and which we as modern pioneers must carry forward. We live in the present and plan for the future. Let us not forget the lessons we can learn from the past. Let us use our advantages to the utmost. Let us "Learn to Live."

# rows

Our efforts on Memories 1951 are now finished. The click of typewriters, completed write-ups, cropped pictures, and finally, the assembled pages all are but a part of a memory which will long linger in our minds. During the past months we have worked together, joked together, and, most important, we have conquered our problems together. Each staff has done its job well, but without the help of our advisers and numerous other people, completion of this book would have been impossible.

Our deepest appreciation to:

Miss Drake—for co-ordinating the Literary, Auxiliary, and Typing Staffs, and for her overall guidance in decisions.

Miss Fischer—for her layout ideas and clever artwork.

Mr. Willever—for his help in assembling the wonderful pictures in this book.

Mr. Max Klein—for his superb management of our finances.

Mr. Martin, American Yearbook Company—for his assistance in helping us meet deadlines.

Mr. Chester Zimbal and Mr. Mark Valento of Thomas Studios—for their fine production of our pictures.

The staffs and editors of Memories 1951— To all who helped I say, "Job well done!"

If this book has succeeded in recalling all your wonderful times in B. H. S., we have then produced a successful yearbook.
